

## AMP™ - Active Maintenance Program

### Voltage Regulator Diagnostic Evaluation Oil Sample Data Sheet

|  |   |
|--|---|
| Oil Tests & Diagnostic Package includes: | DGA (ASTM D3612), Moisture (ASTM D1533B), IFT (ASTM D971), Color (ASTM D1500), Visual (ASTM D1524), Sediment (ASTM D1524), Dielectric Breakdown (ASTM D1816), Metals, and diagnostic analysis of results. |
|--|---|

Company Information:

| Company Name & Billing Address | P.O. Number:            |  | Comments |
|--------------------------------|-------------------------|--|----------|
|                                | <b>Job Number:</b>      |  |          |
|                                | <b>Contact Person:</b>  |  |          |
|                                | <b>Send Reports To:</b> |  |          |
|                                |                         |  |          |

Oil Sample Information: (maximum of 3 oil samples per data sheet)

|                                |                            |                            |                            |
|--------------------------------|----------------------------|----------------------------|----------------------------|
| <b>Date Oil Sampled</b>        |                            |                            |                            |
| <b>Sampling Technician</b>     |                            |                            |                            |
| <b>Station Name</b>            |                            |                            |                            |
