

ANNOUNCING

New Diagnostic Service Center

We are pleased to announce that we have recently opened a diagnostic service center in central Florida:

Weidmann Diagnostic Solutions
4701 Crump Road · Lake Hamilton, FL · 33851
Phone 863 438 8300 · Fax 863 438 8855

Weidmann Diagnostic Solutions - formerly Weidmann-ACTI Inc. - specializes in meeting the analytical testing and transformer engineering requirements of the power industry. Our diagnostic service centers provide preventive maintenance tests that include: DGA, Fluid Quality, Corrosive Sulfur, PCB, SF6, Furan Analysis and Transformer, LTC and OCB Diagnostic Evaluation Programs. These tests are excellent tools in determining the probable condition of fluid filled electrical apparatus.

Weidmann Diagnostic Solutions can provide experienced and skilled chemists and engineers who will dovetail with your existing team to provide the most cost effective management of substation assets. We look forward to an opportunity to work with you.

For additional information about Weidmann Diagnostic Solutions, visit our website at <http://www.weidmann-diagnostics.com>.
